Mental illness affects at least a quarter of all marriages. And more often than not, couples suffer silently, alone, and in shame.

In her ground-breaking new book *Blessed Union: Breaking the Silence about Mental Illness and Marriage*, pastor and acclaimed mental health and disabilities advocate Sarah Griffith Lund offers a deeply personal, honest, and hopeful account of how marriages can thrive despite mental illness. Through intimate story-telling and reflection, Lund provides insights, encouragement, and tools to help couples navigate their relationships, in particular, and help lift the stigma and shame around this issue in general.

Lund opens up about her own journey with depression and post-traumatic stress disorder in her marriage, and shares stories of other couples who have been impacted by mental illnesses such as addiction, anxiety, autism spectrum disorder, bipolar disorder, eating disorders, obsessive compulsive disorder, postpartum depression, schizophrenia, suicidality, and more.

Lauded by mental health experts, academics, faith leaders, authors, and marriage therapists alike, *Blessed Union* marries the latest science of psychology with traditional values of faith, exploring how God uses science, medication, and therapy to bring wholeness and healing. In this expansive exploration of mental illness and relationships, Lund also considers mental illness as a justice issue and how that calls us to respond as people of faith.

Blessed Union includes nearly a dozen guided journal pages at the end with prompts on each chapter for deeper reflection and healing, as well a list of resources for further reading and response.

“*Blessed Union* is a book that begins with the challenges and ends with hope.”

—Doug Beach, National Alliance of Mental Illness (NAMI) FaithNet
